

GAST 2015

4TH JOINT MEETING OF
THE GERMAN,
AUSTRIAN & TURKISH
RADIOLOGICAL
SOCIETIES

Innsbruck, Austria
May 1-2, 2015

www.oerg.at

Dear colleagues,

Welcome to Innsbruck, the capital of the Alps!

The Austrian Society of Radiology is proud to host the 4th Joint Meeting of the German, Austrian and Turkish Radiological Societies in Innsbruck/Austria. After three successful meetings in Turkey we decided to leave the Mediterranean area and move to the mountains.

The meeting will take place at the University Hospital of the Medical University of Innsbruck. The conference venue is very close to the historic city center and all hotels are within walking distance.

Innsbruck was recently voted one of the most attractive cities for holidays where you can enjoy city life and unspoiled nature without actually leaving town. The Inn river and the surrounding mountains, which are as high as 2400m, offer a spectacular scenery which will provide you with unforgettable memories of your stay in Innsbruck.

The scientific program focuses on inflammatory and parasitic diseases, trauma management and research in radiology. It also includes sessions on image interpretation. Experts from three countries will cover the above mentioned topics and present research which will influence the way how we practice radiology in the future. The goal is to provide an attractive program for radiologists in training as well as for radiologists at all levels of expertise. In addition, we want to promote a closer relationship between our three societies.

Please save the date: May, 1 and 2, 2015. We look forward to seeing you in Innsbruck and we will do our very best to meet your expectations!
